STATE DEVELOPMENT BASED ON A BROAD-MINDED UNDERSTANDING OF OREGON'S PEOPLE, RESOURCES, AND POSSIBILITIES

Washington and California on either side of us are today vastly more developed than is this great empire of Eastern Oregon. We know that the potential possibilities here are greater.

You and I know that this development for the advancement of state, nation and the individual, must be in tune with a state's administration which shall make it the matter of greatest importance to apply sound business principles to this development.

Politics in the ordinary sense must be placed on the shelf. As long as politics must be reckoned with at every move it is illogical to expect more than the past has given us. Ten years from now, under the policy of today, will see the situation exactly the same.

We owe it to ourselves, to the state, to the Nation which needs all we can produce, to make the most of the good that nature has given us.

In thinking of me as a candidate for the Republican Nomination for Governor, consider me a man who is applying for the biggest business job in the state, namely, the governorship of the state itself.

In hiring me consider my 19 years successful conduct of my personal affairs and the successful principles of community development which I have worked out and which I propose to apply in the broadest sense in the state at large.

The state house at Salem is nothing more than the office of the manager you have hired, where the rule, "THE MOST GOOD FOR THE GREATEST NUMBER" shall always prevail.

On the basis of less politics, sound business backed by experience in the desired lines, I come to you as a candidate for the governorship.

The New GOSSARD CORSETS for Spring

WHILE retaining all those qualities that have characterized and famed Gossard corsets in past seasons, they strike a new note in corsetry—a subtle change that is reflected in a more delicately beautiful outline and in an even more graceful flat back. Youth is the keynote in the style of these new Gossard models.

This is the

Thirty-second Announcement and Proclamation of Gossard Corset Styles for Spring and Summer, 1917

The new models vary in height of bust and length of skirt—as they should—to meet the individual requirements of the various figure types, but the general tendency is toward less corset, lower bust and shorter skirts with a smaller waistline indicated by skillful designing rather than actually expressed.

Be fitted today to one of the many models designed for your figure type at \$2.00, \$2.50, \$3.50, \$4.25, \$5.00 and up. An expert corsetiere who understands your corset problems will deem it a pleasure to fit you without obligation.
